

# SLIM

## Floor lamp

Slim is a new light intended to bring innovative use of standard fluorescent lighting and enable it to be used in home as well as in the office. The design intention was to try and 'unite' the light with the ballast-module that always accompanies fluorescent tubes (standardly fitted to the ceiling) into a single object, whose overall appearance would make it more versatile and 'open' for more types of uses. By uniting the two elements (a ballast-module is housed in a bottle-like extension of the 'minimal' metal pipe, laser-cut for optimal light-emission) a new lamp emerges - one that is easy to use as a standard office lamp, freestanding lamp with a base, or an elegant vertical pendant lamp. The direction of light beam is hand-regulated - therefore the lamp is coated in 'soft touch' mat-white colour, enhancing the tactile experience of the user.

Material: aluminium

Colour: white "soft touch"

Design: Bevk Perović

## Specifications

Code	V02004 9202 / 28 W L-179 cm
Typology	floor lamp
Light source	fluorescent T-5 28 W, G5
Light emission	direct adjustable
Class	⊕, ENEC
Installation	▽, ⊕
IP rating	IP20
